Notice of Allowability

Application No.

09/723,326

Examiner

Terry A. McKelvey

Applicant(s)

WEBSTER, KEITH A.

Art Unit

1636

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address--

All claims being allowable, PROSECUTION ON THE MERITS IS (OR REMAINS) CLOSED in this application. If not included herewith (or previously mailed), a Notice of Allowance (PTOL-85) or other appropriate communication will be mailed in due course. **THIS NOTICE OF ALLOWABILITY IS NOT A GRANT OF PATENT RIGHTS.** This application is subject to withdrawal from issue at the initiative of the Office or upon petition by the applicant. See 37 CFR 1.313 and MPEP 1308.

1. ☒ This communication is responsive to 5/3/04.
2. ☒ The allowed claim(s) is/are claim 61.
3. ☐ The drawings filed on _____ are accepted by the Examiner.
4. ☐ Acknowledgment is made of a claim for foreign priority under 35 U.S.C. § 119(a)-(d) or (f).
 - a) ☐ All b) ☐ Some* c) ☐ None of the:
 1. ☐ Certified copies of the priority documents have been received.
 2. ☐ Certified copies of the priority documents have been received in Application No. _____.
 3. ☐ Copies of the certified copies of the priority documents have been received in this national stage application from the International Bureau (PCT Rule 17.2(a)).

* Certified copies not received: _____.

Applicant has THREE MONTHS FROM THE "MAILING DATE" of this communication to file a reply complying with the requirements noted below. Failure to timely comply will result in ABANDONMENT of this application.

THIS THREE-MONTH PERIOD IS NOT EXTENDABLE.

5. ☐ A SUBSTITUTE OATH OR DECLARATION must be submitted. Note the attached EXAMINER'S AMENDMENT or NOTICE OF INFORMAL PATENT APPLICATION (PTO-152) which gives reason(s) why the oath or declaration is deficient.
 6. ☒ CORRECTED DRAWINGS (as "replacement sheets") must be submitted.
 - (a) ☐ including changes required by the Notice of Draftsperson's Patent Drawing Review (PTO-948) attached
 - 1) ☐ hereto or 2) ☐ to Paper No./Mail Date _____.
 - (b) ☒ including changes required by the attached Examiner's Amendment / Comment or in the Office action of Paper No./Mail Date _____.
- Identifying indicia such as the application number (see 37 CFR 1.84(c)) should be written on the drawings in the front (not the back) of each sheet. Replacement sheet(s) should be labeled as such in the header according to 37 CFR 1.121(d).
7. ☐ DEPOSIT OF and/or INFORMATION about the deposit of BIOLOGICAL MATERIAL must be submitted. Note the attached Examiner's comment regarding REQUIREMENT FOR THE DEPOSIT OF BIOLOGICAL MATERIAL.

EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Stanley Kim on 6/18/04.

The application has been amended as follows:

In the specification:

The sentence at page 4, lines 20-21, has been replaced with the following:

-- Figs. 3A-3B depict GEMSA analysis of HIF-I and NFkB transcription factor binding to cognate sites with or without induction. --

In the claims:

Art Unit: 1636

Claims 1-21, 23-27, and 42-60 have been canceled.

61. (New) An isolated expression vector comprising (a) one or more silencer elements from the human synapsin gene and one or more hypoxia response enhancer elements to form a silencer-inducible region, and (b) a promoter in operative linkage with said silencer-inducible region, wherein said promoter is thereby regulated by said silencer-inducible region, and said promoter is upstream of at least one nucleotide sequence, wherein at least one of said silencer elements and one of said hypoxia response enhancer elements are arranged within 500 nucleotides of each other, and wherein silencing of expression of said at least one nucleotide sequence from said expression vector is reversed in the presence of an inducing condition.

Drawings

The drawings filed on 11/28/00 are acceptable subject to correction of the informalities: the figures contain handwritten text that is barely legible and thus clearly the figures are informal. In order to avoid abandonment of this application, formal drawings (following all requirements for

Art Unit: 1636

formal drawings) are required in reply to the Office action.

The correction will not be held in abeyance.

The following is an examiner's statement of reasons for allowance:

The closest prior art is Webster et al which teaches vectors comprising the hypoxia response enhancer element and suggests use of a silencer element to suppress the activity of a selected promoter in the absence of hypoxia and Li et al which teaches the use of a silencer element from the human synapsin gene to be capable of conferring repression on heterologous promoters. However, these references together with or without other prior art do not make obvious the claimed invention because there was no reasonable expectation of success that the particular combination of hypoxia response enhancer element(s) with silencer element(s) from the human synapsin gene would function together to make a functional silencer-inducible region as shown in the specification.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

Any inquiry of a general nature or relating to the status of this application or proceeding should be directed to (571) 272-0547.

Patent applicants with problems or questions regarding electronic images that can be viewed in the Patent Application Information Retrieval system (PAIR) can now contact the USPTO's Patent Electronic Business Center (Patent EBC) for assistance. Representatives are available to answer your questions daily from 6 am to midnight (EST). The toll free number is (866) 217-9197. When calling please have your application serial or patent number, the type of document you are having an image problem with, the number of pages and the specific nature of the problem. The Patent Electronic Business Center will notify applicants of the resolution of the problem within 5-7 business days. Applicants can also check PAIR to confirm that the problem has been corrected. The USPTO's Patent Electronic Business Center is a complete service center supporting all patent business on the Internet. The USPTO's PAIR system provides Internet-based access to patent application status and history information. It also enables applicants to view the scanned images of their own application file folder(s) as well as general patent information available to the public.

For all other customer support, please call the USPTO Call Center (UCC) at 800-786-9199.

Any inquiry concerning rejections or objections in this communication or earlier communications from the examiner should be directed to Terry A. McKelvey whose telephone number is (571) 272-0775. The examiner can normally be reached on Monday through Friday, except for Wednesdays, from about 7:30 AM to about 6:00 PM. A phone message left at this number will be responded to as soon as possible (i.e., shortly after the examiner returns to his office).

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Dr. Remy Yucel can be reached at (571) 272-0781.
